

# People who care,

That's the kind of people we have because that's the kind of company we try to be. That's why we use the *Lioness* as the symbol for Kansas City Life. Lions are the only big cats who work in groups . . . protecting all of their own. And we think we're successful because our people *take care of their own*. That means working harder to do what's right for *you* instead of trying to make an extra buck. A successful life insurance agent isn't the one who sells you and forgets you. Success is repeat business. If we don't do right by you, you won't be back.

Now, we know we aren't perfect, but we do our best to have career agents who care enough to advise and counsel you. And we try to provide them flexible products for financial protection that can be easily tailored to your individual needs. But more importantly . . . we know we are what we are because of **Our people.**

*The Lioness...protecting her own.*
